White House picks Gregory for deputy administrator position

President George W. Bush has announced his intention to nominate Fredrick D. Gregory as the next NASA deputy administrator. Gregory, 61, is a veteran astronaut and U.S. Air Force combat pilot, and currently serves as the associate administrator for the Office of Space Flight at NASA Headquarters in Washington. If confirmed by the Senate, Gregory will serve as the chief operating officer, responsible for directing and managing many of the programs, as well as the day-to-day operations and activities, at NASA.

American Cancer Society aids Station experiment with grant

To understand how basic molecular processes cause breast cancer, the American Cancer Society has awarded a \$768,000, four-year grant to Dr. Gloria Borgstahl, a biochemist at the University of Toledo in Ohio. Borgstahl has been conducting experiments on the International Space Station with NASA's Office of Biological and Physical Research as part of the Macromolecular Biotechnology Program at Marshall.
